

## **Backstop-Mat Maximum Safe**

Height: 2m / 6,5 feet

Weight: 2kg/m / 0,62kg/feet

Mounting system: eyelets at the upper edge

Accessories: steel wire

### **Instructions for the correct suspension of the Backstop-Mat Maximum Safe:**

- Put the steel wire through the eyelets of the Backstop-Mat Maximum Safe.
- Attach the steel wire to 2 fixed points. The holder must not loosen.
- Ensure a suitable height so that the Backstop-Mat can hang freely.
- When the Backstop-Mat hangs, align the Backstop so that it folds. The standard value here is 10% of the nominal length.
  - Set up a security area behind the Backstop-Mat which must not be entered by persons.

### **Recommendation for correct function:**

- Check the Backstop-Mat Maximum Safe for damage before each use and replace it if necessary.
- Before each shot, make sure that there are no people or animals behind the Backstop-Mat Maximum Safe.
- Never shoot from a distance less than 15m / 45 feet.

### **Guarantee:**

- This Backstop-Mat has been tested intensively and has an excellent stopping effect. However, as with all Backstop-Mats, no guarantee can be given for a one hundred percent stop effect.
  - Depending on the bow, pull weight and arrow material, the Backstop-Mat Maximum Safe should be hung up in two layers to improve the stopping effect.
- We do not take over a guarantee for a wrong or abusive use.
